The Authority of Congress.

The differences which have arisen between the loyal majority in Congress and the opposition party which politicians have endeavored to combine and consolidate against it, are not hard to understand, nor difficult to define. The majority in Congress, backed up by the united loyal strength of the country, North and South, asserts that with Congress, and with Congress alone rests the duty of deciding what government is the established one in a State, and whether such government is republican or not; and of defining when a State that has been in insurrection, shall be entitled to representation in the National Legislature. The opposition to the Congressional majority deny the authority of Congress to be such as is above asserted, and hold that the insurgent States are now and have ever been entitled to send Senators and Representatives to Congress, and that Congress has no constitutional power to refuse admission to such members as these States may send. They hold further, that Congress cannot undertake to decide whether a State has a government or not, or whether such government, if any exist, is republican in form. The agency of Congress in these grave matters is denied altogether. But those who argue in this way were not always of the opinion which they now hold. At the last session of Congress the Judiciary Committee of the Senate unanimously reported the following resolution. It may be mentioned that Reverdy Johnson and others who now go against the majority were members of that Committee:

"The persons in possession of the local authorities in Louisiana having rebelled against the authority of the United States, and her inhabitants having been declared to be in a state of insurrection in pursuance of a law passed by the two Houses of Congress, you committee deem it improper for this body to admit to seats Senators from Louisiana, *till by some joint action of both Houses there shall be some recognition of an existing State government* acting in harmony with the Government of the United States and recognizing its authority."

We refer to this proposition merely to show that certain members of the Senate Judiciary Committee who are now the partisans of the President, once held views on this important subject precisely opposite to those which they now profess to entertain. As a substitute for the above proposition the following was introduced and passed, every Democratic and Conservative Senator voting for the substitution:

"That when the inhabitants of any State have been declared in a state of insurrection against the United States by proclamation of the President, by force and virtue of the act entitled, "An act further to provide for the collection of duties on imports, and for other purposes," approved July 13, 1861, they shall be, and are hereby declared to be incapable of casting any vote for electors for President and Vice President of the United States, or of electing Senators or Representatives in Congress until said insurrection in said State is suppressed or abandoned and said inhabitants have returned to their allegiance to the Government of the United States, nor until such return to obedience shall be declared by the proclamation of the President, issued by virtue of an act of Congress, hereafter to be passed, authorizing the same."

Thus we find that in July, 1864, the Senate asserted the power of Congress to decide the whole question now in issue, only three Senators voting in the negative.

So that by this deliberate vote, (we quote the language of Senator Sherman) "after debate, after the attention of the Senate had been called to the importance of the proposition by the Judiciary Committee, at a time when there was no excitement and no party feeling on this proposition, the doctrine now in dispute was asserted by an almost unanimous vote of the Senate." Thus it appears that the authority of Congress over this matter has always been claimed by that branch of the Government.

The following from the opinion of Chief Justice Taney in the case of *Luther vs. Borden*, covers the whole ground in dispute, and sustains Congress in the position it has taken:

It rests with Congress to decide what government is the established one in a State. For as the United States guarantee to each State a republican form of government, Congress must necessarily decide what government is established in a State before it can determine whether it is republican or not. And when the Senators and Representatives of a State are admitted into the councils of the Union, the authority of the government under which they are appointed, as well as its republican character, is *recognized by the proper constitutional authority.* And its decision is binding on every other department of the Government, and cannot be questioned in a judicial tribunal

The main question now in issue between the Congressional majority and the opposition has already been frequently decided in favor of Congress. As Senator Sherman remarks, "it has never been controverted until during the present session.

THE SAME EVERYWHERE.—Besides being "immutable," Democracy is the same everywhere. Of course it is! Don't our neighbor Jones round the corner say so? The San Francisco *Examiner*, an alter Jones than our neighbor Jones round the corner, upon hearing of the passage of the civil rights bill over the veto, exclaimed with Democratic unction:

"Will it be enforced! If so, then truly are the American people a degenerate one, and the sooner they have a master the better!"

And again:

"*Does any one believe that laws thus enforced by* THESE USURPING WRETCHES—laws plainly and palpably at variance with the Constitution—*will be enforced in the States?*"

That's good Democracy—genuine nullification Democracy—law-loving, law-abiding Democracy—the sort which attempted to save the Union in 1861, by driving a nest of patriot traitors out of Fort Sumter—the Democracy which afterward routed the traitor Yankees at Bull Run, surrendered at Vicksburg, made laws at Montgomery, got up conspiracies in Indiana, raided through Ohio, starved traitor Union soldiers at Andersonville, assassinated the "tyrant Lincoln," thirsted for the blood of Seward, and manifested its devotion to the government of the United States by various other proofs of like character. We can't dispute the democratic earmarks. It belongs to our neighbor Jones round the corner and he is welcome to it. We don't like the article. But we *are* impressed with the belief, despite these democratic warnings, that *this law*—even this civil rights law—will "be enforced in the States"—in every State in this Union.

OREGON CITY.—Gov. Gibbs and Col. Hawkins addressed a large and enthusiastic meeting at Oregon City on Wednesday evening. A letter from that place informs us that the meeting was one of the largest which has ever been held there. Gov. Gibbs made a capital speech and was followed by Col Hawkins, whose merciless expose of the rebel Democracy elicited the loudest cheers from the Union men and utterly shocked and discomfitted the Copperheads. The meeting was prolonged to a late hour. Clackamas county will give her usual rousing majority for the Union ticket this year.

"Our neighbor Jones round the corner" says "the Democratic party will take the south by the hand and shed mutual tears over the slain." The loyal party will shed no tears over slain traitors, raise no monuments to their memory sing no psalms to their praise. And if the Democratic party should hereafter shed any tears over slain patriots, it will be more than they have ever yet done

PURE DEMOCRACY.—Zack Montgomery has revived his paper, the *Occidental*, in San Francisco. He publishes a prospectus in which, after relieving himself of the usual amount of Democratic "argument" against the inferior races, he goes on to say:

"Looking upon the school room as the spot wherein have been planted and nurtured into fruition the seeds of hypocrisy, dishonesty, infidelity, bigotry and intolerance, both religious and political, which have produced the terrible harvest of evils that now afflict our unfortunate country, we shall insist upon going to the school room, in order to eradicate the evils."

If Democrats want a paper that will "fearless

Walla Walla Raises Objections.

Judging from the statements of the paper at Walla Walla, that town seems to have been unfortunately located. It is not situated so that all the coaches, wagon trains and steamboats which take their departure from the lower country for Idaho and Montana can pass through its streets or touch at its wharves. As a consequence, Walla Walla (if we may judge from the tone of the paper published there) is quite unhappy, and in her unhappiness endeavors to persuade our merchants that since they cannot send their freight through Walla Walla, they cannot send it at all. The *Statesman* of the 20th inst. has an article a column in length, endeavoring to show the utter impracticability of the route to "Helena by White Bluffs, the Lake, and Clarke's fork." The road is a quagmire, the steamboat is a humbug, and the whole scheme chimerical to the last degree. But let us see what Capt. Mullan, considered by the *Statesman* as an unimpeachable authority, says on this subject:

> A project has been conceived to open a canal from the Clark's fork at the Pen d'Oreille Lake to the Spokane an event, also offering marked advantages for steam navigation for at least eighty miles. My idea has always been steam on Clark's fork at Park's crossing, running thirty miles to the lake thirty miles across the lake, and twenty miles up the Clarke's fork, would reach a point where a cheap wagon road could be opened to Hell Gate, and that in time, this would be done.

The *Statesman* wants the Mullan road opened, so that all the business with Montana will go through Walla Walla. This would be very right if the road could be so improved as to render it suitable for the purpose indicated. But the Mullan road passes through a very heavy growth of timber, over high mountains and through untraversable swamps, so that for a considerable part of the year it cannot be traveled at all, and never, otherwise than by pack animals. Therefore if we are to reach Montana at all we must do it by the route which the Walla Walla paper has pronounced a humbug. And if the Walla Wallans were not so anxious for their own town to be the centre of the commerce of the upper country, they would learn by studying a Milten's "Guide" that the road which bears his name is too difficult of travel to be made of much use for the purpose of transporting freight to the mines of Montana.

OBEYING HIS INSTINCTS,—The local scavenger of the *Herald* is trying to gratify his Democratic instincts by vilifying Col. Hawkins, a loyal East Tennessee soldier, lately arrived among us. Had a rebel officer who had but lately quit the service of Jeff. Davis, come to our State, all the Democratic papers would have united in giving him a hearty welcome, just as they did when "Lieut. Col. John Land, C. S. A.," arrived. The *Herald* would have landed him for his "meritorious services," as the *Confederate Democrat* did "Col." Lane. But when these sneaks see a Union soldier, their instincts prompt them at once to begin their vile abuse of him. But it is of little consequence that these serpents hiss. The conduct of the foul, envenomed Copperhead of the *Herald* would not be consistent with the practices of his fellows, were he not to maliciously attack with his rancorous tongue every Union soldier that he can see or hear of. And yet their platform adopted in this city declares that they "will hold in grateful recollection those through whose patriotic services the integrity of the Union was restored." You malevolent hypocrites!

The *Herald* says:

> President Johnson boldly defies the "bastard apologists" for Congressmen who now disgrace the Capitol (is this refined language the *Herald*'s or the President's?) to show one single act of his career inconsistent with his present professions.

We can very easily show that his *present* acts are utterly inconsistent with his *past* professions. Contrast what he has lately said and done with the first public declaration made by him after he succeeded to the Presidency. The subjoined is an extract from that address:

> I have no policy to declare. I have no policy, and can have none, but shall await the development of facts and events for whatever policy I may adopt. What I want is the support and encouragement of the people. But of one thing I may speak plainly, treason is a crime and must be made odious. The conscious traitor must be punished. Mercy is beautiful in theory, but is incompatible with treason. Mercy is God's prerogative; justice, man's."

NO DEMOCRAT CAN APPROVE THE MESSAGE OR THE MAN WHO UTTERED IT. *O'Meara, last December.*

But D. J. O'Meara is now a candidate for office, and to get votes, and to show the "immutability of Democracy" says:

> WE SHALL STAND BY THE PRESIDENT. TO BE WITH THE PRESIDENT IS TO BEAT DARK FANATICISM. THE DEMOCRATIC PARTY SUSTAIN THE PRESIDENT.

Ah! Dennis, if dishonesty be a fault, you are little better than one of the wicked."

We don't wonder that the *Herald* man has so poor an opinion of the Lieutenant General of the armies of the United States as to write his name "grant." He has little reason to admire Grant, and much reason to be jealous that the General's military reputation is so far above that of the truly Democratic chieftain General Lee.

Our Democratic neighbor wants "to shed mutual tears over the slain;" How while he has tears for every rebel and guerilla, and murderer of the South who has been killed in battle or hanged on a gibbet, has he, our benevolent and lachrymose neighbor, any tears for old John Brown?

State Items.

The Astoria *Gazette* publishes a short article about Tillamook from which we extract the following: Tillamook Bay country with the oyster fisheries of Netarch, some twelve miles south, and the Nehalem coal beds about the same distance north. There is not a more beautiful valley of prairie and farming land in the entire State than that surrounding and lying upon Tillamook Bay and river. The population and voters there are now quite double what they were one year since. The oysters of Netarch Bay are equal to those of Shoalwater Bay or any others on the coast, and very abundant; though the passage in and out the Bay is not quite as good as it might be desired. At the Nehalem riverthey have discovered the finest coal on the Pacific coast—judging from the specimens exhibited. Further examinations of the coal regions are to be made soon, preparatory to opening the mines. There are good agricultural lands here too, and the prospects are very good in that vicinity.

We are informed that a telegram has been received from Judge M'Bride announcing that he will take his departure from Washington for Idaho in a very few days. He will come overland.

The following named persons were recently elected by Columbia Lodge No. 5, I. O. O. F. at the Dalles, as Representatives to the Grand Lodge of Oregon, which convenes in that place on the 15th of next month: N. H. Gaine, H. A. Hugun, A. W. Ferguson and Jas. Halloran.

The Idaho papers are continually declaring that the California overland route to that Territory is far better, cheaper, quicker and easier than that via the Columbia river. And yet those same journals shop all their paper, material etc., by this route.

[DISPATCHES TO THE OREGONIAN.]

DATES TO APRIL 26.

Congressional.

WASHINGTON, April 25.—In the House, Kasson, of Iowa, offered a resolution which was adopted, requesting the President to communicate any regulations entered into or proposed, in relation to the rebel debt, known as the cotton loan.

Rundell, of Pennsylvania, offered a resolution which was adopted, instructing the committee on commerce to inquire what legislation is necessary to prevent foreign vessels bringing bitter passengers in undue proportion to the capacity of the vessels, and how it is likely to be introduced.

The speaker presented a statement from the Superintendent of public buildings stating that he had caused the excavations of West Virginia and Nevada, to be painted and the glass put in over the last of the House.

The bill to secure the speedy construction of the Union Pacific Railroad and thus guarantee its bonds, was taken up and read twice.

Wentworth, of Illinois, Delano, of Ohio, and Spaulding, of Ohio, spoke against the bill, and Woodbridge, of Vermont in favor of it.

Morrill of Vermont, from the committee on ways and means, reported a bill to amend the revenue act.

In the Senate, Sherman, of Ohio from the committee on agriculture reported a resolution to print 30,000 copies of the report on the subject of the rinderpest. Sherman said the committee had considered the subject of the disease, but had come to no conclusion as to the mode of preventing its spreading in this country. In England, the Parliament had ordered the preservement and slaughter of cattle in all infected districts, but this he did not believe could be done in this country, under our form of government. The Senate then took up the Colorado question.

Doolittle, of Wisconsin, in the course of his speech, defended his position relative to the resolution of the Wisconsin Legislature, asking him to resign.

Howe followed, commenting upon Doolittle's remarks. After further debate, the Senate by 19 against 3, reconsidered the former vote, and then, by a vote of 19 against 19 passed the bill admitting Colorado

Sumner, of Mass., before the final vote, offered an amendment providing that Colorado shall amend her constitution in favor of universal suffrage as a condition precedent to admission. Rejected, ayes 7, noes 27. Those voting in the affirmative were Edmunds of Vermont, Foster of Conn., Grimes, of Iowa, Howe, of Wisconsin, Morgan, of New York, Poland, of Vermont, and Sumner, of Massachusetts.

Work of the Reconstruction Committee.

WASHINGTON, April 25.—There is a rumor current at the Capitol, that the Reconstruction committee at its meeting to-day, failed to agree on a report, there being some disagreement among the leaders. An effort will, however, be made to reconcile the conflicting views

Cholera in New York—The Properties of Nitro-Glycerine Explained.

NEW YORK, April 26.—The Deputy Health Officer reports twelve individual deaths from cholera on the hospital ship, and the reception of five new cases.

Official statistics were published by Otto Burtenbomber to-day, charged with the shipment nitro-glycerine by Wells, Fargo & Co.'s California Express. Alfred Noble, the inventor, was called for the defense and defined the properties of the oil as follows: 1st, it is a liquid; 2d, it is poisonous; 3d, if set on fire, it does not explode; 4th, confined and heated to 300 degrees it explodes; 5th, it has more concentration or power than gunpowder. He said: "We are trying the effect of mixing it with sawdust. My belief is that the mixture will prove more dangerous than the oil itself. Nitro-glycerine is not inflammable, for if fire is set to it does catch like turpentine or spirits, but goes out when the match is withdrawn. It does not explode by the application of fire. Its use in blasting is only possible through a patent fuse, as a shower of sparks will not explode it. The application of fire has been tried hundreds of times. Concussion will not explode it. We tried throwing it from heights of fifty feet, and in Hamburg the experiment was tried of tying it to a rocket and its fall of more than one thousand feet did not explode it. We afterwards proved it by heat in confined space, showing it to be pure.

European News.

NEW YORK, April 22.—The steamer *City of Boston*, from Liverpool, April 11, *via* Queenstown 12, has arrived.

LONDON, April 12.—Consols closed at 89⅝@89¾ for money; 89⅝@89⅞ for account.

The Austria-Prussian difficulty continues. It is asserted that Prussia decidedly refused to comply with the Austrian request to withdraw the order for the mobilization of the army.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, April 26.—No eastern news to-day.

About 11 o'clock this morning a fire broke out in the rear of J. S. Taylor's stables on the south side of Clementine street. An alarm was struck from box 53, which called out the fire department, who worked with a will and finally succeeded in subduing the flames, but not until six houses and a stable were destroyed and several buildings in the neighborhood considerably charred. The losses, as far as can be ascertain in the confusion incident to the scene, are as follows: J. S. Taylor, two houses and a stable, about $25,000; insurance for $15,000. Mr. Clark, night watchman in the Omnibus Railroad Depot, lost furniture valued at about $200. A German family, who were occupying a house belonging to Mr. Meyers, barber, lost their furniture, worth about $200. Flatherty, a carman, had his furniture burned up, valued at $150. A house occupied by James Kennedy, a laborer, was damaged to the extent of $700. The house occupied by Flaherty, was owned by Michael Ross, whose loss is $2,000. He was not insured. The house occupied by Clark, and another one adjoining, were worth about $1,000, are reported insured. A high wind was blowing at the time, and it is almost a miracle, considering the combustible nature of the surroundings, that more damage was not done.

The answer of Chief Burke to the complaint of Handman, Neilson & Co. has been filed in the 16th District Court. He denies all the allegations in the complaint and says that the substance is liable to various unavoidable accidents in the handling and transportation thereof, and is peculiarly and in many ways subject to unintended explosion; that it is a substance, when exploded, of terrible and destructive power, and cannot be safely stored or handled in the immediate neighborhood of populous districts; that in any position and in any inhabited places it is dangerous and not a fit or allowable agent for any legitimate purpose; that defendant has been authorized and directed by the Supervisors to seize and destroy, and that such destruction is necessary to prevent the further handling or transportation of the same; that it cannot be transported or handled without danger to the community and that plaintiff's offer the same in market for a price for the very purpose of being handled and transported; that the peculiar properties of the substance and the chemical laws governing it are not precisely known, even to experts; that unlike other explosives in use, it is untested by experience, and that the most terrible accidents have recently occured here and elsewhere in the ordinary transportation of said substance, showing its unfitness for the purpose alleged in the complaint, or for any other proper purpose. Defendant denies that said nitro-glycerine, in its present shape, is harmless, as alleged; denies that it is impossible for damage to life and limb to ensue as alleged, and avers that in its present locality it is dangerous to the persons and property of the inhabitants of this city and county. He also denies that the damage to plaintiff by the destruction of the nuisance complained of cannot be computed, but alleges that it has a certain price in the market and is currently offered for sale, wherefore he prays that the injunction be removed and the action dismissed.

Mining Stocks and Money Market.

Quotations of gold and sterling exchange in New York yesterday were 127 and 108 respectively, showing a slight advance.

Legal Tenders remain unchanged

Mining stocks are depressed, and lower prices were very generally made. Yellow Jacket fell $5; Belcher $15; Ophir $10; Hullion $5; Confidence $2; Imperial $3; and Daney $1; while Chollar Potosi rose $5 from the corresponding board yesterday.

The money market is easy. There were considerable transactions in Mexican dollars at 96@96½ per cent premium.

FROM THE NORTH.

VICTORIA, April 26.—The steamer *Oregon* arrived here to-day from San Francisco, with 177 passengers. They encountered strong head winds on the voyage.

The business of the cable connecting this island with the main continent was opened with the following congratulatory messages between the President of the United States and the Governor of Victoria Island

VICTORIA, April 24.—*To the President of the United States at Washington:* I congratulate you on the completion of the telegraphic line connecting Vancouver's Island with the United States, effected by American enterprise. It is my earnest hope that it may prove an enduring line to bind the United States of America and Great Britain in the bonds of peace and progress

(Signed) A. E. KENNEDY, Governor.

To which the following reply was sent from Washington, April 25th, to His Excellency Gov Kennedy Victoria

> We thank you for your kind greeting, and join with you in the hope that the enterprise, the successful prosecution of which is thus signalized, may be continued until it shall speedily unite the two continents, and open to each a common and complete civilization.

(Signed.) ANDREW JOHNSON.

WM. H. SEWARD, Secretary of State."

On the receipt of the reply, which was publicly read by the Mayor, great enthusiasm was manifested, the event being celebrated by the pealing of bells, firing of cannon and a liberal display of bunting.

Weather clear and cool

EUREKA.—The *Index*, a Democratic paper published at Umatilla, complains that Mr. Mallory, in his last speech there, spoke of "effete issues"—that is to say, of the ineffable infamy which the democracy brought on their party by their conduct during the rebellion. We don't wonder that they desire their record to be buried forever from the sight of men. If the "issue" which the *Index* talks about is "effete" it is because the Democratic party is "effete" also. It is no fault of ours that the corpse is not buried deep enough to imprison its noisome odiuvium and "hide it forever from prevention."

Owyhee Items.

The following is condensed from the Owyhee *Avalanche* of the 14th inst.

A new lead has just been discovered near Ruby City, which the editor of the *Avalanche* made personal inspection of, and found it to be forty-five feet wide. The discoverers are Martin Butler, Hugh McIlraw and others. An assay of the croppings gives per ton: Silver, $14 10 gold, $39 85; total, $53 95. A contract to run a tunnel across the ledge had been let, and the work shortly commenced.

Personal excitement has been lively this week. On Wednesday parties came in and exhibited finer looking specimens than at any previous time. Some of them closely resembled the one exhibited by Caleb Lyon. We are informed that they contained spots of unmistakable rich ore, easily distinguishable. Many new prospectors, confident of success, have gone to the district.

The Morning Star Mill cleaned up $12,000 during the week.

President Johnson persuaded the blacks that he was their Moses, but before they got through the Red Sea they found him their Pharoah.

INSPECTORSHIP OF NAVIGATION.—The present stage of water in the Willamette river affords no objection to ships of the largest class coming to Portland, and the commercial interests of the city are such as to demand that such improvements deem this the proper season to make to begin permanent improvements. It will be remembered that last year something was done by the city in the improvement of the navigation of this river, but as the powers of the city were then high, and no movement was made without caution, the committee considered it necessary to proceed carefully and economically, which is generally the case in most matters in new cities, and they found at the close that they were "penny wise" about an improvement which must be made, and they will this year be compelled to do their work almost wholly over again. The report, according to the report of Mr. E. E. Walker, who has been the Inspector of the committee, and who is acknowledged to fully understand the business in which he is engaged, is very defective and wholly incompetent to make a report for which it was designed, and in order to do it what it should be it will be necessary to build it all over, involving an expense probably equal to that of building a new machine, and still it would be defective in many of these facts it is suggested that the cheapest and most practicable mode of proceeding would be to remove the dredging apparatus, and put a powerful snag-puller in its place, at an expense of about $1,000. This could be done for obvious reasons. The derrick should be taken off the dredger, and a new dredger could be constructed at an expense not exceeding $12,000, in time to have the snag-puller within ninety days, and with the assistance of the current remove all the sand lodged in the channel, some 38,000 cubic yards, so saving the cash paid for dredging, and so not to interrupt commerce the whole season. With regard to the amount of material to be removed, to give the depth of water above mentioned, from the Columbia river to Portland, Mr. Walker finds there are 112,000 cubic yards, 24,000 cubic yards of which is deposited at Swan Island. The material is composed of sand, lost in its present position by snags and other obstructions from the river bank, which have fallen across or floated down the river to their present locality. It has been decided impossible to successfully remove the sand until the trees are removed, and a powerful snag-puller is of the first importance for success, having obtained the services of Mr. Walker. An Ordinance was passed Thursday, authorizing the committee to effect a loan of $5,000 for five years, from the first day of May, at ten per cent per annum, from which sufficient will be realized to do the work of improving the navigation of the river, as it is effectually. The lower, or natural channel of the river, will be opened, and the work immediately commenced.

G. VENARD,

CHARTRES COFFEE!

Manufactory Established in June, 1851.

STEAM POWER, NOS. 625 AND 647 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the merits of which daily increase. The acknowledged superiority of his merchandise, which commands here, and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine VENARD'S CHARTRES COFFEE. This fraud can be relied only after a trial, but only adds to the favorable opinion of it consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.

M. HOWARD'S HAIR RESTORATIVE,

315 Montgomery St., San Francisco.

THE ABOVE PREPARATION, WHICH HAS BEEN recently discovered and patented, is purely a Vegetable Extract.

The undersigned are fully aware of the many unsatisfactory and unstable preparations for restoring hair that have been introduced to the public, and have little confidence is to be placed in any pretensions to restoring the hair to bald heads, but having tried MR. HOWARD'S PREPARATION, we are able to state that it not only prevents the hair from falling out, but absolutely reproduces it, and that we can have good results of hair growing where we were entirely bald. The fixture, as a matter of justice to Mr. Howard, and of consideration to bald heads, we render him this testimonial. Mr. H. keeps the article for sale in bottles with directions for its use, or applies it himself, as may be desired.

Mail Lettings.

A correspondent of the San Francisco *Bulletin* furnishes the subjoined information respecting new postal routes and mail lettings in Oregon Nevada and the Territories.

Oregon.—From Auburn to Clarkesville. From Dalles City to Prineville. From Prineville to Baker City.

Nevada.—From Carson by Ophir Washoe City and Steamboats Springs to Ruthless Road. From Ione to Camp Activity and Austin. From Austin to the Centre Fork on Austin by Kingston Twin River and San Antonio district, to 80 per Week. From Virginia by Sacramento district, to Silver Peak. Star Dunglen and Paradise Valley to Rose City and Unionville.

Washington Territory.—From Walluba by Antelope Plants, Fort Crocille Lake and Hell Gate to Helena Montana Territory.

Among the Idaho routes let for weekly service is Boise City to Walla Walla Fort and Humboldt City, Nev., by thence at $7,000, let to Alfred R Larkin. The distance is 250 miles. Other Idaho lettings of importance are for tri weekly service from Boise City to Placerville 60 miles; weekly service from Boise City to Atlanta, 100 miles, and from Lewiston to Florence 90 miles.

Some of the principal lettings in Washington Territory are as follows. Weekly service from Walla Walla to Pierce City, A J Kipson $4,000, present price $6,000. From Walla Walla to Fort Colville, 220 miles, A J Kipson, $8 000; present price $6,000. From Olympia by Shelton town, Seattle, Port Madison, Tacholet, Port Ludlow, Port Townsend and Port Angelow, to Victoria British Columbia 240 miles, weekly, by steamboat, Wingate Crosby & Co., $10,000 present price $12,000. Seattle to Whatcom, weekly, steam service, John Cosgrove, $3 000. Olympia, by Tumwater to Montierello 35 miles tri weekly Charles Granger, $2,500 present price, $8 000.

Oroville (Cal.) to Susanville, 170 miles—Four bids for weekly service, ranging from $3,000 to $6,000, are in but have not yet been acted upon. I mention them only because they relate to the first section of the new mail route from California to Idaho which extends from Susanville, Lassen county, to Boise City, Idaho, by way of Owyhee, a distance of 500 miles. The accepted bid for tri weekly service for the present season is that of L Williams San Francisco, at $35,000. This would seem to be comparatively much lower than the Oregon mail bids but for the fact that the mail matter by the new route will be very small in amount for some time to come. Eight other bids for weekly service were offered at sums ranging from $28,000 to $120,000. When the contract for carrying the mail from Oroville to Susanville is let, it will soon be, the California and Idaho mail route will be 160 miles long, connecting with railroad and tide-water to San Francisco, nearly 200 miles further.

Letter from Montana.

(Correspondence of the Walla Walla Statesman.)

HELENA, M. T., March 15, 1866.

But two years ago, the valley of Alder Creek, (30 miles long) was the only Eldorado of the country. To-day they are all mining there in all months. We come to the "Boulder," "Prickly Pear," and arrive at "Last Chance," "Grizzly," "Nelson's," "Tucker," "Ore Flint" and "Dry Gulch," or "Hangman's Gulch," in the immediate vicinity Alder Gulch, upon which lies Virginia City, in 1,200 miles south-east from here. North we have "Confederate," "Montana," "Oregon," "Wilder's" and several bars of more or less note—some of them paying very well. To the north-east is any number of unprospected gulches that bear evidences of gold deposits. Before leaving "this side," I would remark that there is a complete net-work of quarts through the whole Territory, but how rich, except in a few instances no one can safely say. Pockets have been frequently found in ledges that would pay as high as ten and fifteen dollars to the pound. But this would not do to judge the ledge by. While there are perhaps a dozen very rich ones, there are at least 100 very poor ones. The small amount of labor expended upon leads, other than only developed their existence not tested their wealth or resources. The "Blue Clematis" district, near the "Big Hole," and situated between Virginia City and Bannock, is the best known abroad. But the district around Helena is equally rich in fact; has exhibited the richest quartz as far found, although all the mountains contain quarts with scarce an exception. Passing over the divide, we emerge into

THE VALLEY OF THE BLACKFOOT

Here, in nearly every gulch, gold in paying quantities exists. In some, want of water prevents their being worked successfully; in others, the usual difficulty of hunting pay streaks has thwarted the prospector. Thus far. "McClellan," "Jefferson," and several others, are claimed to be rich—new discoveries have been made in each during the Fall and Winter. The great centre of attraction at present is a cluster of gulches, located between the Gold Gate and Big Blackfoot rivers. Elk Creek and Bear Creek, the former emptying into Big Blackfoot and the latter into Hell Gate river, only a few miles range of mountains having the appearance of a detached portion of the same range that feeds the McClellan and other rich gulches. Big Blackfoot evidently at some former period had a different channel or outlet, but through the agency of some eruption, the waters have burst through the walls of this mountain and formed the present channel. Some eighteen gulches, tributaries to Elk and Bear Gulches, have been prospected most satisfactorily. One thousand dollars is about the lowest figure asked for a claim in the district, and from thirteen to five thousand. Prospectors are confident that equally good diggings will be discovered as soon as the snow will admit of traveling about the mountains.

Horrors of Salisbury—Trial of Major Gee.

[Correspondence of the New York Tribune.]

RALEIGH, N. C., March 13.—The Court met at ten o'clock in the morning.

TESTIMONY OF JOHN A. POTTER.

John A. Potter sworn—Reside near Salisbury; was employed as section master on the North Carolina Railroad in the Autumn of 1864; passed the prison every day except Sunday; the wood was hauled on the train and thrown off near the prison; there were generally about 200 cords near the prison in the town lying by the side of the road; at one time saw two women prevented from giving food to two prisoners who were getting wood at the wood-pile. Cross-examination unimportant.

TESTIMONY OF CHARLES G. ASHLEY.

Charles G. Ashley sworn—Was a soldier in the Eight New York Heavy Artillery in 1864; was captured at Reams' station, Va., in August, and taken to Salisbury about the 6th of October; the average rations were about one-third of a loaf of bread a day—sometimes a half, sometimes a quarter, and sometimes none—about half a pint of rice soup a day—most occasionally; we went three days without food at one time; saw Major Gee with Southern officers calling for recruits; was told they were offering $30 (in rebel currency) and two loaves of bread; the prisoners were crowding up when they were ordered back by the guard, who told them he would fire on them; I saw Major Gee once at the Dead-house; as I passed, heard some one say, "That man breathes;" and saw the surgeon feel his pulse; Major Gee said: "Take him along" or "carry him out;" I don't remember which; he will be dead by the time he gets to the trench;" the dying man was in the cart, but was taken out by some of the prisoners and carried back to the hospital; saw him open his mouth after he was taken out; this happened in January, 1865; Babbitt, Harris, and others I cannot name, were present at the time; fifteen of my company were at Salisbury, and seven of them died there.

Cross-examined—I swear positively it was Gee I heard say either, "Take him out, or carry him along, he will be dead before he gets to the trench;" saw the prisoner taken out of the cart and carried back to the hospital; I was standing at the time in front of the dead-house, about ten or fifteen feet from Major Gee. (The witness then described the Major's dress particularly.) Gee himself made the offer of $50 and two loaves of bread to prisoners who would join the rebel army; about 400 or 500 prisoners, I think, joined the rebels.

TESTIMONY OF H. B. ORLAND.

H. B. Orland, sworn—Was prisoner at Salisbury; captured in the Shenandoah Valley and sent to the prison last of October, 1864; I belonged to One Hundred and Fifty-first New York Volunteers. (Witness repeated what has been stated respecting the slender character of the rations.) Heard Major Gee say to the guard, "When you see a gathering of the prisoners, fire in among them, and make them scatter;" about a dozen men were shot back of the main building; never heard any warning given before firing; prisoners were enlisted for the rebel army and notices stuck upon the trees: "Wanted, 400 foreigners to enlist in the Confederate service. They shall receive $50 and double rations as soon as enlisted;" signed "by order of Major Gee, commanding post."

During the cross examination the witness described Gee's dress on the occasion mentioned particularly, and said he (witness) swore positively to the words of the notice, "By order of Major Gee, commanding post."

TESTIMONY OF M. M. SHOFFNER.

M. M. Shoffner, sworn—Live in Alabama; was in Lee army, was in Salisbury in 1865, and had a conversation with Major Gee; went to see Daniel Koch, a Southern deserter confined in that prison, and to take him a box of provisions; Gee refused to let me enter the prison; he said I could not go in to see any d—d Yankee or take anything to any d—d Yankee.

Cross examined, the witness described the time, place and circumstances of his interview with Major Gee, and was certain about the language used on the occasion; the witness recognized the prisoner as Major Gee.

INDORSED.—The following telegram, says the Washington *Chronicle* of February 25th, reached us yesterday:

KEOKUK, Iowa, February 24, 1866.

To Andrew Johnson, President of the United States: Immense mass meeting held here to-day! Great enthusiasm! One hundred guns! Your veto message and Administration unanimously indorsed. CLAGGETT

Senator Grimes showed that the author of the dispatch had not only been opposed to the war, and of course to Andrew Johnson, but was the editor of a Keokuk Copperhead paper, so vile that the soldiers of Iowa gutted his office and tumbled his type and presses into the river, having to cut holes in the ice, in midwinter, for the purpose.

Miss Stebbins, of Chickasaw county, Iowa, has received from Gov. Stone the appointment of Notary Public of that county. She is probably the first lady that ever received a like commission, and is represented as eminently qualified for the position.

THE VIGILANTES IN IDAHO.—The Idaho *Statesman* of the 17th inst., makes the following statements in extenuation of the recent action of the Vigilantes in the Territory:

It is nothing more than to state this Territory has been ruled and controlled by lawless and unorganized bands. Laws with have made highway and private robbery burglary and murder when necessary for that purpose (many of such Justices and officers of the courts have been terrified by their threats from a discharge of their duties and in some instances they have succeeded in being elected to office first only to betray the too confiding public into the hands of their bloody confederates, or in most criminals to escape other than legal charge fairly duly by bribing them to justice. Burglary robbery and murder were taken as daily occurrence and defied with impunity. And when there was a faithful officer to take the track of murderers, he soon found his pay roll well guarded by a defendants that capture was all but an impossibility. And when as it sometimes happened, an arrest was made without process and prosecuting officers were threatened with speedy death if they dared to go on in the discharge of their duty to such an extent that criminal trials have become mockery. Good citizens have trembled for their personal safety for having served on a grand jury. The express and stage companies have been obliged to conduct their operations with the utmost secrecy, to avoid robbery by villains who on the know to be daily in their offices and about their stations waiting for opportunity to plunder. If a merchant intended to leave town upon business he used every precaution to conceal the time of his departure so as to lessen the chances of being robbed. It is useless to state what is so notorious a fact that a multitude of the foulest murders have gone entirely unpunished. To such a degree has this state of things existed that the law seemed to present no check to whatever rogues the villains that habitually prey upon society choose to commit. It is true the Territory had laws, but an iron of terror prevented their execution. Space forbids us to mention the numerous atrocities that make up the long list committed here in Boise City. The last one was the deliberate murder of which we recently testified to the truth in the case of Lee. Before this ultimate body was removed from the place where he fell, D. C. Updyke stepped up to a prominent citizen of this place and significantly said, "That affair grew out of the assault yesterday, and there will be many more like it." The whole tenor of the preliminary examination of Clark gave the assurance that the same influence that had delayed justice so often before were to be used to their utmost in this case. Clark was committed to await trial, afterwards served and executed, is well known. Updyke was most facetious in his threats against several citizens, whom he charged with having a hand in the execution, and finally, as he left town announced his intention of returning to pay Boise City one more visit before it got over, or to that effect. He has been executed, as also a confederate that went away with him. As to the terror that has reigned for the last two years, it has come to an end. Good citizens and peaceable men walk the streets and go about their business in comparative safety. The grand jury that is now in session, when their labors are done, may disperse without danger of being assassinated for the discharge of their duty. There is no alarm in the community and no terror for any one except those who prey upon society and their fellow men. Such is the exact condition of affairs to-day.

THE EX-REBELS IN MEXICO.—A Mexican correspondent of the New York *Times*, says Lieut Maury is quite out of favor, not only at the Court of Maximilian, but with his fellow ex-rebels, whom he has treated rather shabbily. "There is but one opinion about him here," says the writer "The Emperor, the Ministers, the French authorities, the Mexicans in general, and his Confederates, consider him a humbug of the first water. He seems to take the plain hints that are thrown out at him, and he is going to leave for Europe." In another place it is stated that Maury had already left for Vera Cruz, to take passage for England, he having accepted, as some of his friends allege, a proposition from the Atlantic Cable Company to superintend the next effort to lay their cable! Others, however, assert that he has gone to secure the sum of $80,000, which has been raised by the scientific people in Europe to present to him! Maury's trouble will be his brother rebels appear to have been amused by some swindling operations. The Empress gave him money and lands for the benefit of the colony, but the money he seems to have put in his pocket, while the best of the lands were bestowed upon his son. The writer visited the ex rebel settlement. He describes it as a magnificent spot, but none of the settlers are doing much excepting Gen. Shelby, who is realizing a splendid income.

Another correspondent writes that Maury leaves because he is disgusted with Mexico, not because Mexico is disgusted with him, and it is believed he will never return. Emerson is also about to leave in disgust, the Imperialists who had induced him to start a newspaper having left him in the lurch. His paper, the Mexican *Times*, is going into other hands, and will hereafter be published in English, French and Spanish.

Many Confederates who were induced by the representations of Maury & Co. to emigrate to Mexico, are said to be in a very destitute condition, and some of them on the verge of starvation.

AN ITEM ABOUT DR. SCOTT.—The Pacific friends of Rev. Dr W. A. Scott will be interested to learn that he has received a call from the Pine street Presbyterian Church of St. Louis, and the reason why he received it is not his admitted ability, but because he left California under a cloud concerning his loyalty to the Government. Dr. Scott, however, is quite comfortably settled in charge of a fashionable and wealthy congregation in Forty-Second street, New York, and it is very doubtful whether he will leave. The character of the congregation may be inferred from their history during the last four years. The church was presided over until 1863 by Rev. S. B. McPheeters, and was so noted for its disloyalty that the Union men belonging to the church petitioned the military authorities to remove the Pastor. Every baptismal Sunday children were baptised under such loyal names as Sterling Price, Robert E. Lee, etc. At length General Curtis, while he was in command here, removed Dr. McPheeters, and General Rosecrans subsequently ordered him banished. The congregation then got along for a few months without a regular pastor, when Dr. McPheeters went to his native State (Kentucky) and accepted a call at Shelbyville in that State. Then his old flock gave a call to Rev. Mr. Thom, a worthy man, but he died a few months ago, whereupon the congregation, by the votes of men who had not attended the church for many months previously, gave a call to Mr. McPheeters. The latter hesitated, and finally declined to accept. The call to Dr. Scott is the result of the refusal. The congregation is not very wealthy but is quite fashionable. It is doubted if they can make it pecuniarily advantageous to the Doctor to leave his New York charge.

THE EMPEROR OF AUSTRIA AND BANCROFT'S OPINION.—The celebrated American historian, Bancroft, has imprudently wounded the dignity of the house of Hapsburg to the quick. He has dared to qualify the Emperor Maximilian as an adventurer, and Francis Joseph has sent a strong protest on the subject to the Cabinet at Washington, which, however, has declined to entertain it, and consequently the great American republic and the illustrious house of Austria are at loggerheads.

We are glad to see the Cabinet at Vienna taking part in the affairs of Mexico. This is an excellent opportunity to allow Austria the exclusive care of defending the cause of Maximilian, who is much more closely connected with that country than with France.

Moreover, the Emperor Maximilian might dispense with all foreign assistance, since, according to the Mexican journals, he feels himself able to hold his own, if necessary, against the Yankees.

We learn from late English dispatches that there was great satisfaction at the capital of Mexico with the turn that the Bagdad affair has taken, and with the attitude of the Cabinet at Washington, inasmuch as it "relieves the Emperor Maximilian of the necessity of declaring war against the United States."—*Opinion Nationale, Mar. 2d*

THE ARLINGTON ESTATE.—This princely domain, on the Virginia shore of the Potomac, with an elevated site for its mansion, which commands a panoramic view of Washington, Georgetown and Alexandria, was left by the adopted grandson of the *Peter Parley*, G W Curtis, to his only white child, now the wife of Robert E Lee. She has endeavored to get it restored to her, but it is held by the Freedmen's Bureau under a regular legal title, having been purchased at a tax sale. A large part of the estate has been divided into five acre lots, to be rented to colored people, some thirty acres in a Union cemetery, where sleep thousands of our brave defenders, and now the colored children of Curtis, who were freed by his will and declared entitled to a comfortable support during their lives, ask that small homesteads may be assigned them on the lands where they toiled in their youth. Really, Mrs Robert E Lee, *nee* Curtis, has a not much show of recovering her ancestral acres, which she persuaded her husband to leave when he unsheathed his sword against the Government to which he owed allegiance.

The Louisville *Democrat* says that on the 5th of February last Michael King, about 17 years of age, was killed at Oakland, Kentucky, by being struck on the head with a stake which was drawn from the ground by an unruly horse. Two days after the fatal accident, and when the body was about to be buried, the relatives of King thought that they noticed evident signs of life, and the body was removed to the house, where it was kept for several days. A report got in circulation at the time to the effect that the boy had come to life. After keeping the body for several days it was removed to the lower graveyard and placed in a vault, where it now is, and it has been visited by hundreds of our citizens. The body retains its natural appearance, is limber and warm, after being dead in the graveyard one month. We have heard no reason assigned for this strange phenomenon.

Pierre Soule's mansion on Esplanade street, New Orleans, for about two years occupied as a Freedmen's Orphan Asylum, has been restored to him by order of General Howard.

THE JOHNSONIAN "UNION PARTY."—The standard bearers of the Union party, *par excellence*, are quite prominent politicians, and their antecedents are too well known to excite any disaffection in the Union ranks. The work of repeal will come with the President. The following is a list of dead ducks composing the officers of the "National Johnson Club": President, Montgomery Blair—the Postmaster General under Lincoln, compelled to resign because he was "fleshy," and who last November stumped New York for the Copperhead ticket. This is the President of the Club, and a fair sample of the Association. Let us look at the Vice Presidents. There is Charles Mason, who is an unpunished Copperhead, and was chairman of the Democratic Committee in 1864; James Gordon Bennett, editor of the New York *Herald* who belongs to every party the same year; W. H Leman, ex U S Marshal, a man who could not get three glasses of lager beer on credit; Cornelius Wendell, the old Government printer under the traitor Buchanan; J F Coyle, the hireling editor of the *National Intelligencer*. James Hughes a Copperhead lawyer; J W Denver, who killed Gilbert in a political duel in 1852, and always on the inside; M F. Truett, a leading Broom Ranger in the McClellan campaign in Nevada; Nesmith, of Oregon, Sixtes Rights Copperhead, born in Yankee land; Doan Richmond, of New York, who forced the nomination of McClellan in 1864—and a salt boiler as ignorant as an inordinate; Asa Parker, a Buchanan Democrat. Senator Saulsbury, the composer of James Mellvaigall in the U S Senate, James Mellvaigall, always a Democrat when drunk, and always drunk. James Guthrie, one of the unsubjugated Copperheads from Kentucky, A. C Dodge who has been dodging Federal shells since 1861. Robert McClellan, one of Pierce's Cabinet from Michigan; A H Stewart, father of the rebel General of that name; Van Winkle and Norton, twin Conservatives in the U. S. Senate, Dave Todd, ex Copperhead Governor of Ohio, James L. Orr, a whitewashed rebel from South Carolina, and Marcus J Parrot, a "border ruffian" from Kansas. How do Union men like the sentiments of the President—his body guard!—*Louisville Appeal.*

HANDSOMELY DONE.—A while ago they had what is called a "difficulty" in the Tennessee House of Representatives, in the progress of which Speaker Heiskell was moved to throw an inkstand at the head of a member named Mullins. Now, we are not very well versed in Jefferson's Manual or Hatsell's Precedents, but we do not regard throwing missiles at the heads of members as among the authorized means whereby Speakers are to keep order; but we make some allowance for the freedom of Western manners. But the *Daily News*, presuming the Speaker to be a radical, pitched into him vehemently, charging him with outraging public decency, and holding him up as a sample of radical turbulence and ruffianism. "Hold, there!" interposes the Memphis *Argus*, "you are hitting your friends. Heiskell is a conservative Union man of the truest type, and a warm supporter of President Johnson." Thus enlightened, the *News* makes a thorough *amende*, as follows:

"Some time ago the Speaker of the Tennessee House of Representatives, finding it impossible to preserve the order of that body by the use of any means known to parliamentary assemblages, resorted to the novel expedient of silencing one "unruly member" by hurling his gavel at the head of the obstreperous Mullins. In some playful communists upon the fact we intimated that the Speaker was a radical, and thereby did him some injustice, as we are glad to learn from the Memphis *Argus*. We beg to assure him that we not only mean this correction with a great deal of pleasure, but are really sorry that he did not knock 'old' Mullins down, if the fact stated by the *Argus* are true, as they doubtless are. We wish him better luck next time."

We think the Speaker should be satisfied.—*N. Y. Tribune, March 12th.*

The extent of the bituminous coal field surrounding Pittsburg is fifteen thousand square miles, or eight million six hundred thousand acres. The upper seam of coal in this area, ranging at an average depth of eight feet, is estimated to contain 56,516,480,000 tons of coal, which, at two dollars per ton, or a little over seven cents per bushel, would be worth $106,032,360,000—a sum equal to the payment of the national debt nearly twenty-seven times, supposing it to be four thousand millions; or an amount equal to the gold and silver product of California and Nevada for more than a thousand years, even if they yielded one hundred millions annually.

It is claimed at Washington that neither our Government nor the British Minister apprehended any danger of an invasion of Canada by the Fenians.

SOMETHING NEW AND NOVEL.—A PATENT APPLIED FOR.—MR. HENDEE has invented an article by which he can take any number of Head Pictures on the same plate without the subject getting up from the chair; can get different positions of the face and all sizes of heads, can put a half dozen heads on the space of a half dollar; can put a whole family of heads on a common sized card, and will sell pictures cheaper than any other Gallery on this coast. Has the process for taking the new and beautiful style picture called the Porcelain or Sun Pearl, he much talked of in San Francisco, also has engaged a man from that place who has been making those pictures in San Francisco.

Mr. H. is now prepared to do as good work and in as great variety of style as any Gallery in Portland. Orders for full portrait size of photograph will be promptly attended to. sp16d4pf
